Khaled Hassan Ahmed

Front-End Developer | Vue.js · Nuxt.js · React
(+20) 1284456019 | Cairo, Egypt | DoB:19th of January 2002
khaled.h.almass@gmail.com | Portfolio | GitHub | LinkedIn

PROFESSIONAL SUMMARY

Front-end developer with 2+ years of professional experience building responsive, high-performance web applications with Vue.js, Nuxt.js and React. Skilled in state management (Pinia, Vuex, Redux), UI frameworks (Vuetify, Bootstrap, Tailwind) and REST API integration. Delivered production systems for government and private-sector clients, mentored junior developers, and focus on clean, reusable, SEO-friendly code.

PROFESSIONAL EXPERIENCE

Frontend developer (Vue.js)

Oct 2024- Dec 2025

Egyptian Army programming center |Cairo, Egypt

- Architected and delivered an end-to-end Interview Committee Management System in Vue.js, enabling committee members to submit, review and manage evaluations digitally.
- Developed an executive office management system for the Director, covering personal meetings and appointments, commitments and conferences scheduling.
- Built clean, scalable, reusable Vue.js components following SOLID principles.
- Mentored junior developers on code quality, best practices and performance optimization.
- Improved search-engine visibility of the system's public-facing modules through on-site SEO optimization.
- Resolved critical production issues and ran routine performance audits to keep load times optimal.

Frontend developer (Vue.js & Nuxt.js)

Apr 2024-Sep-2024

Cairo House Development (CHD)| Cairo, Egypt

- Built responsive websites, mobile web applications and SPAs with Vue.js and Nuxt.js, following web development best practices.
- Integrated UI components with RESTful APIs via Axios in collaboration with backend developers.
- Translated UX design specifications and technical constraints into refined product requirements.
- Implemented SEO strategies and performance optimizations using Nuxt.js server-side rendering (SSR).
- Introduced workflow improvements by keeping up with emerging front-end technologies and trends.

Frontend Development Intern (Vue.js).

Aug 2022-sep 2022

Information Technology Institute (ITI) | Mansoura, Egypt

- Built and optimized web applications using Vue.js and modern JavaScript best practices.
- Applied SEO techniques and performance debugging on real-world project assignments.
